Thanks, Rob - could you send us the data (in a spreadsheet or for import to Equis), as well as the QAPP?

Stephanie:

I did not forget this. The 2012 TSI Focused Sediment Investigation was described in part in Tierra's Focused Sediment Investigation Work Plan, Quality Assurance Project Plan, Revision 1 dated December 2011.

As part of the State litigation, Tierra collected samples from 7 locations in the LPRSA and analyzed for PCDD/PCDF, HCX, and Cs-137. The purpose of the sampling event was to investigate a potential second source of 2,3,7,8-TCDD using HCX as a marker.

R/

Rob

Hi Rob,

We noticed that the following dataset was included in what you transferred to us recently:

2012 TSI Focused Sediment Investigation

Could you please provide some additional information on this dataset?

Thanks,

Stephanie
